

Due to the effects of this pending storm both our offices and our entire area is under a mandatory evacuation. At this time we are anticipating extended days without power, road closures, damages to beaches, and damages to properties. We have suspended operations to at least Monday October 15<sup>th</sup> and may need to extend that once we're able to fully assess the area in the aftermath of the storm.

If you are due to arrive at one of our properties during this period please delay your plans to travel until you hear further from us. If you have reservations due to arrive in November or after we ask that you refrain from calling or messaging us at this time so that we can focus on servicing those arriving in the immediate future. We will contact any and all guest reservations that are affected by this event but know our correspondence will be on priority of arrival, not first come first serve.

Please know if you have any questions about your reservation as it relates to Red Sky Travel Insurance please [click here](#) to visit the Travel Insurance section of our website. The information on that page can answer questions for those both with and without insurance. If you purchased a policy through another provider (i.e. CSA, Travel Guard, etc) you will need to contact that provider directly.

We ask for your patience during this time as we anticipate a heavy amount of calls and emails from guests just like you with questions and updates on our area. We will do our very best to provide as much information as possible but I urge you to visit the Pristine Properties Vacation Rentals Facebook page and the Gulf County Emergency Management page for updates.

We appreciate everyone's thoughts and prayers as our area will bounce back from this historic event.
